## Introduction

The Advanced Polling System is a voting system, whereby students select a suitable candidate for SRC. Below is a table of contact information if you require any further assistance.

## Group contact information

Name and Surname	Contact Number	Email address
Nadine Jansen	061 465 5864	njansen990@gmail.com
Luyanda Gumede	072 112 5937	2aubrey12@gmail.com
Nompumelelo Mtshatsheni	079 035 2734	nompumelelomtshatsheni@gmail.com

## Getting Started

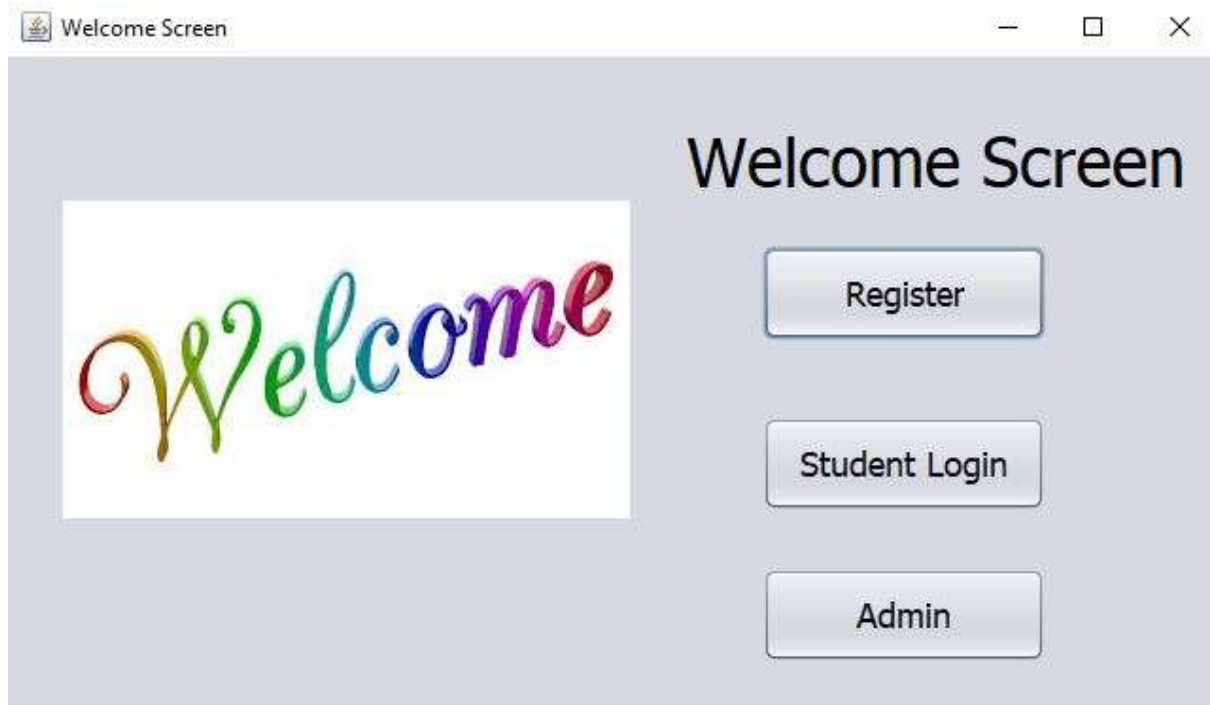

### How to install

Screenshots and briefly explaining upon how to install the system, this will be illustrated below the instructions heading.

### Instructions

#### 1: Registering a new student

Step1: The user will be presented with the welcome screen. The user will select the register button, to register themselves onto the system.

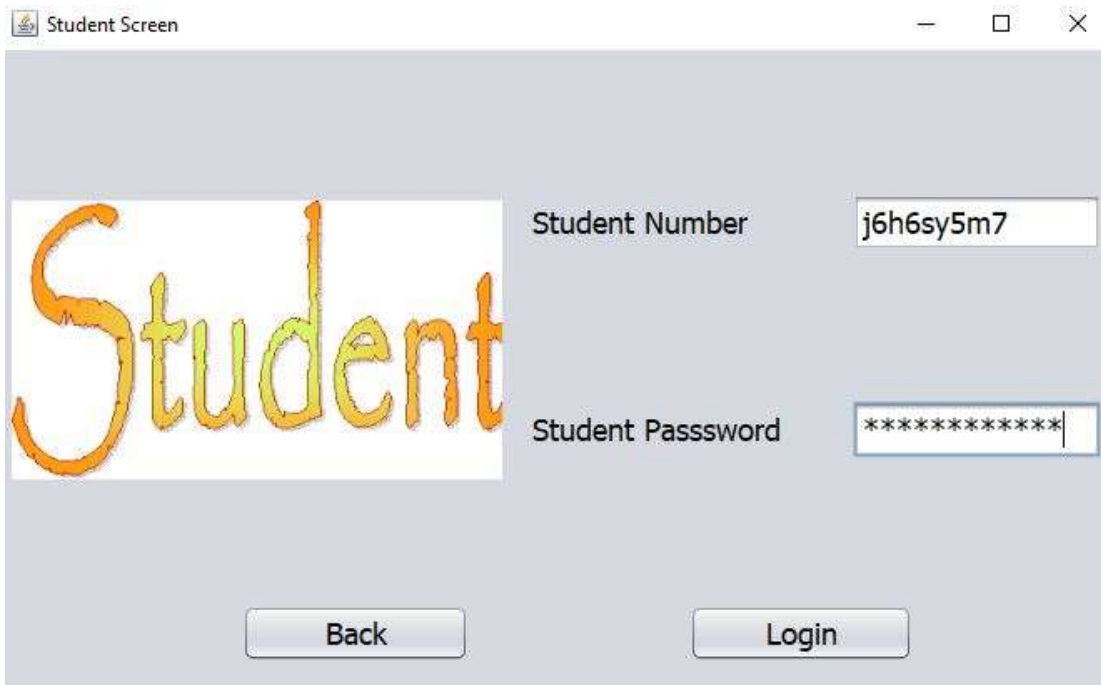

Step2: The user should fill in all relevant information and click “Next”. If you want to return to the previous screen click “Back”.

The Register Screen is a window titled "Register Screen" with standard minimize, maximize, and close buttons. On the left, there is a graphic with the text "Register YOURSELF" in a stylized font. On the right, there are five input fields with labels: "Student Number" (containing "j6h6sy5m7"), "Name" (containing "peter"), "Surname" (containing "jackson"), "Email" (containing "peter@gmail.com"), and "Password" (containing "\*\*\*\*\*"). At the bottom left, there are two buttons: "Back" and "Next".

Step3: The user should fill in all relevant information and click “Login”, if the user wants to return to the previous screen click “Back”.

The Student Screen is a window titled "Student Screen" with standard minimize, maximize, and close buttons. On the left, there is a graphic with the text "Student" in a large, stylized font. On the right, there are two input fields with labels: "Student Number" (containing "j6h6sy5m7") and "Student Password" (containing "\*\*\*\*\*"). At the bottom, there are two buttons: "Back" and "Login".

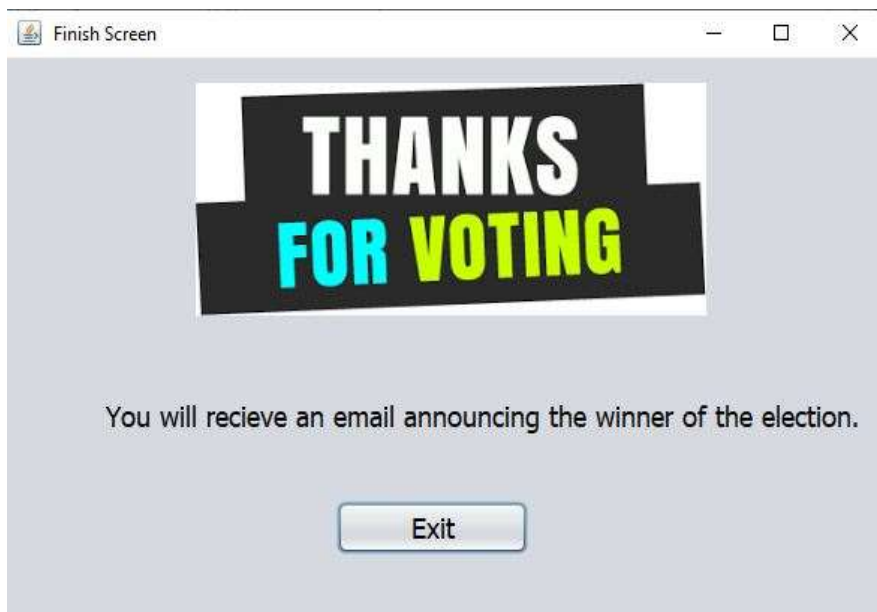

Step4: The user is required to only select one suitable candidate from each given position, after selecting the suitable candidate, the user should click on “Vote”, but if you wish to return to the previous screen click “Back”.

The screenshot shows a window titled "ToVotes" with standard Windows window controls (minimize, maximize, close). The main content area has a blue header with the text "ELECTION TIME" in large, white, stylized letters. Below the header, there are five rows, each representing an election position. Each row consists of a label on the left and a dropdown menu on the right. The positions and selected candidates are: President (Nadine), Vice President (Lulu), Secretary (Shaun), Assistant Secretary (Chad), and Treasurer (Mpumi). At the bottom of the window, there are two buttons: "Back" on the left and "Vote" on the right.

Position	Candidate
President	Nadine
Vice President	Lulu
Secretary	Shaun
Assistant Secretary	Chad
Treasurer	Mpumi

Step5: The finish screen will be displayed, indicating that the voting has been completed, click “Exit” and the welcome screen will be displayed for the next user to cast their vote.

The screenshot shows a window titled "Finish Screen" with standard Windows window controls. The main content area has a light gray background. In the center, there is a black rectangular box with the text "THANKS FOR VOTING" in large, bold, white and yellow letters. Below this box, there is a line of text: "You will recieve an email announcing the winner of the election." (Note the spelling of "recieve"). At the bottom center of the window, there is a button labeled "Exit".

## 2: Admin login

Step1: Admin will be presented with the welcome screen and should click on “Admin”.

Step2: Fill in relevant information and click “Login”, if admin wants to return to previous screen click “Back”.

Step3: The database screen will be displayed, which allows admin to manipulate data. If admin clicks "Candidate Information", all relevant information of candidate's is displayed and etc or click "Back" to return to the previous screen.

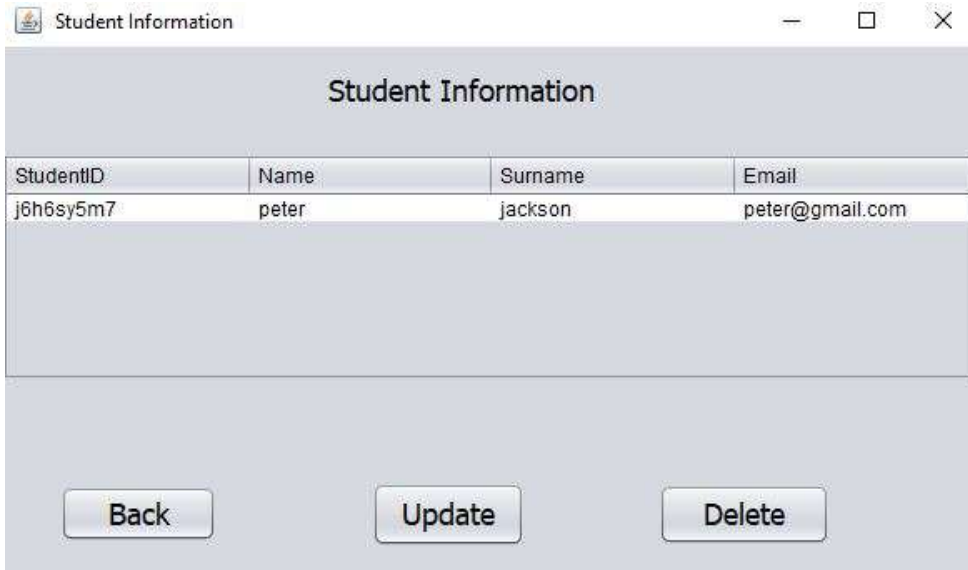

Step4: The candidate information displays all relevant data about the candidates and it allows admin to manipulate the candidate's data. Click "Back" to return to the previous screen.

Step5: The student information displays all the registered student's information. Click "Back" to return to the database screen.

The screenshot shows a window titled "Student Information". Inside, there is a table with the following data:

StudentID	Name	Surname	Email
j6h6sy5m7	peter	jackson	peter@gmail.com

Below the table, there are three buttons: "Back", "Update", and "Delete".

Step6: The voting results allows admin to see which candidate was casted the most votes. Click "Back" to return to the database screen.

The screenshot shows a window titled "Voting Results". Inside, there is a table with the following data:

Position	Candidate Name	Winning Votes
President	<input type="text"/>	0
Vice President	<input type="text"/>	0
Secretary	<input type="text"/>	0
Assistant Secretary	<input type="text"/>	0
Treasurer	<input type="text"/>	0

Below the table, there is a "Back" button.
